### 2026–2027 Winter Storage Notice & Information

Dear Members,

It is time to start preparing for the upcoming 2026–2027 storage season! Please note that we do not auto-renew storage contracts, so a yearly renewal is required. Please review the updated procedures, key deadlines, and pricing below to ensure priority access and a smooth transition.

## Key Deadlines & Payment Rules

- **August 15th, 2026 (Member Priority Deadline):** $250.00 non-refundable storage deposit is due for Heated Storage, Inside Cold, and Outside Storage.
- **Inside Space Forfeiture:** If your deposit is not received by August 15th, you will forfeit your inside space and be limited to outside storage only. Remaining availability will be opened to non-members.
- **Non-Returning Members:** If you stored with us during the 2025–2026 season but do not plan to return for 2026–2027, please notify the office ASAP so we can update our waitlist.
- **Contract Requirement:** Once your deposit is received, a storage contract will be sent to you. Signed contracts must be returned within 15 days of receipt. Boats will not be hauled out without a signed agreement on file.
- **Payment Methods:** We accept checks, cash (exact amount), and credit card. A 3% surcharge applies to all credit card transactions.

## Haul-Out & Launch Scheduling

- **Haul-Out Dates:** Scheduling begins August 15. Standard haul-outs begin September 15. Early haul-outs prior to Sept 15 must be pre-approved by the office and are strictly limited.
- **Order of Hauling & Launching (Building Layout):** Boats are arranged like a puzzle inside the buildings. Boats hauled out early in the fall are placed deeper in the facility and will be launched later in the spring. Boats hauled out late in the fall remain near the doors and will launch earliest. Because our buildings must be emptied in a specific order, the launch schedule will be determined by our team based on the physical layouts of the boats inside. We will always make every effort to align your preferred launch date with our operational needs, but the order of removal is ultimately dictated by how boats are positioned in the building.
- **Boat Movement & Valet Service ($100 fee):** Owners are requested to bring their boats to the well at their scheduled haul-out/launch time. If you need our staff to bring your boat to the well or return it to your slip after launch, a $125.00 service charge applies per move.

## Cancellations & Re-Bunking Fees

- **Cancellations / Schedule Changes:** Please provide as much advance notice as possible. Spring schedule changes create a domino effect and disrupt scheduled lineups.
- **Boat Readiness & Re-Bunking Fee ($3.00 / lin. ft.):** Boats must be ready when scheduled. If your boat is not ready when it is time to exit the building, it will be temporarily set outside so other boats can move. A re-bunking fee of $3.00 per linear foot will apply for the additional labor required to move and reposition the boat.

## Additional Services & Winter Maintenance

- **Batteries:** Due to insurance regulations, we do not store batteries. We can disconnect your batteries for you to take home for winter trickle-charging (removal/installation fees apply). Please ensure batteries are returned in time for launch!
- **Pump out Service:** $16.00 per head.
- **Trailer & Cradle Storage:** Starting June 1, 2027, summer storage for trailers and cradles will be billed at $10.00 per linear foot.
- **Winter Maintenance & Detailing:** Winter is the best time for engine maintenance (impellers, belts, tune-ups, alignments, drive services), detailing, or bottom paint. Contact the office for quotes.
